

## BLOOD BEACH

Genre: Horror

The human descendant of a vampire, a college girl helps her centuries old uncle exact revenge for his ancient lover's death.

When a young couple is found brutally murdered on Blood Beach, a gang leader, Lindell decides any girl who wants to be with him has to brave a night on Blood Beach, alone. Coral's Goth mother Sylvia and Granny are horrified.

Only able to step on shore on a new moon vampiric merman, Wave's revenge has been slow until he is drawn to Coral staked on the beach and saves her.

Not able to be mesmerized by him, Coral enters a revenge pact with Wave. While their love grows, Lindell's gang decreases as they help Coral dig out the mouth to Coraline's cave on the promise of fortune and favors. Even as Granny's suspicions grow at the deaths in Lindell's gang, Coral's deception becomes bolder.

On the next new moon Lindell helps Coral remove the boulder giving Wave the freedom to imprison him in the cavern.

In Coraline's cave, Granny's greed grows until Wave comes in. She is horrified that Coral voluntarily takes Wave's blood.

Turned by Coral, Granny is staked on the beach to explode in the dawn sun. Content, Wave and Coral go inside to exact revenge on the second family on Wave's list, Lindell.

The Fog meets Blade in this noir horror.
